**CATEGORY DEFINITIONS**

| CATEGORY NUMBER | COLOR        | ENVIRONMENTAL CONDITION OF PROPERTY  |
|-----------------|--------------|--|
| 1               | White        | Areas where no release, or disposal of hazardous substances or petroleum products has occurred (including no migration of these substances from adjacent properties). However, the area may have used to store hazardous substances or petroleum products. |
| 2               | Light Green  | Areas where only release or disposal of petroleum products has occurred (including migration of petroleum products from an adjacent property).   |
| 3               | Medium Green | Areas where storage, release, disposal, or migration of hazardous substances has occurred, but at concentrations that do not require a removal or remedial action.   |
| 4               | Dark Green   | Areas where storage, release, disposal, or migration of hazardous substances has occurred, and all removal or remedial actions to protect human health and the environment have been taken.  |
| 5               | Light Grey   | Areas where storage, release, disposal, or migration of hazardous substances has occurred, and removal or remedial actions are underway, but all required actions have not yet been implemented.   |
| 6               | Dark Grey    | Areas where storage, release, disposal, or migration of hazardous substances has occurred, but required removal or remedial actions have not yet been initiated.   |
| 7               | White        | Areas that are not evaluated or require additional evaluation.   |
