SUBJECT: First Quarter Groundwater Monitoring for 1994,
Ash Landfill, Seneca Army Depot, Romulus, New York

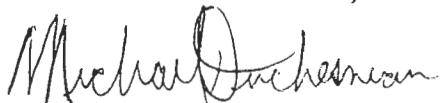

Dear Mr. Suever:

Enclosed are the analytical results for the first quarter groundwater monitoring for 1994. The analytical results are divided into four major groups: volatile organic compounds, inorganics, indicator parameters and QA/QC data (Sections 1, and 2, 3 and 4 respectively, in the enclosed document). Generally, the results of the first quarter 1994 analyses are consistent with historical results.

Please do not hesitate to call me at (617) 859-2492 if you have any questions.

Sincerely,

ENGINEERING-SCIENCE, INC.
