## Statement of Purpose

The purpose of the Base Realignment and Closure (BRAC) Installation Action Plan (BIAP) is to outline the total multi-year cleanup program for an installation. The plan identifies environmental cleanup requirements at each site or area of concern (AOC), and proposes a comprehensive, installation-wide approach, along with the costs and schedules associated with conducting investigations and taking necessary remedial actions (RA).

In an effort to coordinate planning information between the restoration manager, the US Army Environmental Command (USAEC), Seneca Army Depot, BRAC Division, executing agencies, regulatory agencies, and the public, a BIAP was completed. The BIAP is used to track requirements, schedules and tentative budgets for all Army installation cleanup programs.

All site-specific funding and schedule information has been prepared according to projected overall Army funding levels and is, therefore, subject to change. All future phase dates are based on funding requirements and not programming and are subject to change when programming occurs.

The following persons contributed to the formulation and completion of this Installation Action Plan for SENECA ARMY DEPOT ACTIVITY:

Absolom, Stephen  
Fallo, Janet  
Richards, Mary Ellen

Seneca Army Depot  
USACE, New York District  
Bechtel-S Corporation for USAEC

See AEDB-R for Approval and Submittal of Data by  
Installation

# Installation Information

## Installation Locale

**BRAC Round:** BRAC IV

**Installation Size (Acreage):** 10,687.00

**Retained by Component (Acreage):** 0.00

**BRAC Acreage:** 10,687.00

**Acres being transferred to another service:** 0.00

**Acres being transferred to other federal agencies:** 0.00

**Acres being transferred to non-federal agencies:** 10,416.00

**City:** Romulus

**County:** Seneca

**State:** New York

## Other Locale Information

The Seneca Army Depot Activity (SEDA) encompasses 10,687 acres in Seneca County, New York, between Cayuga and Seneca Lakes in the Finger Lakes region and abuts the town of Romulus. It is bordered by New York State Highway 96 to the east, New York State Highway 96A to the west, and sparsely populated farmland to the north and south.

## List of Off-Post Properties

N/A

## Significant Base Tenants

SCIDA  
USACE

## Installation Information

**Projected Date of Final Transfer of Property:** 201209

**National Priorities List (NPL) Status**

A score of 37.3 was recorded on 199008.

**Final RA(C) Completion Date:** 201112

**Date for NPL Deletion:**

BRAC-IRP N/A

BRAC-MMRP N/A

**Installation Restoration Advisory Board (RAB)/Technical Review Committee (TRC)/Technical Assistance for Public Participation (TAPP) Status**

RAB established 1996

**Installation Program Summaries**

**BRAC-IRP**

**Primary Contaminants of Concern:** Metals, Nitrate/Nitrite, Radionuclides, Semi-volatiles, Volatiles

**Affected Media of Concern:** Groundwater, Soil, Surface Water

**Estimated Date for Remedy-In-Place (RIP)/Response Complete (RC):** 201006/202709

**Prior Funding (Includes ER,A funding from FY04 and prior years.):** \$89,315.8 K

**Current Requirements:** \$559.0 K

**Future Requirements:** \$10,363.0 K

**BRAC-MMRP**

**Primary Contaminants of Concern:** Metals, Munitions and explosives of concern, Munitions constituents, Semi-volatiles

**Affected Media of Concern:** Groundwater, Soil

**Estimated Date for Remedy-In-Place (RIP)/Response Complete (RC):** 201709/201709

**Prior Funding (Includes ER,A funding from FY04 and prior years.):** \$11,179.4 K

**Current Requirements:** \$4.0 K

**Future Requirements:** \$22,800.0 K

	Final Construction Completion Report for the Fire Training and Demonstration (SEAD-25) and the Fire Training Pit and Area (SEAD-26)	Parsons	NOV-2006
2007	Draft Final Record of Decision (ROD) for Seventeen SWMUs Requiring Institutional Controls SEADs-13, 39, 40, 41, 43/56/69, 44A, 44B, 52, 62, 64B, 64C, 64D, 67, 122B, 122E	Parsons	DEC-2006
	Draft Proposed Plan Two Areas of Concern Requiring Land Use Controls SWMUs SEAD 121C and SEAD 121I, CD Seneca Army Depot Activity	Parsons	JAN-2007
	Final Long Term Monitoring Plan for the Open Burning (OB) Grounds, Seneca Army Depot Activity, CD	Parsons	JAN-2007
	Draft Construction Completion Report for the Ash Landfill Operable Unit, Seneca Army Depot Activity,	Parsons	JAN-2007
	Draft Annual Report for the Fire Training and Demonstration Pad (SEAD-25)	Parsons	FEB-2007
	Draft Proposed Plan for the Munitions Washout Facility (SEAD-4) and the Building 2079 Boiler Blowdown Pit (SEAD-38), Seneca Army Depot Activity	Parsons	FEB-2007
	Draft Proposed Plan for the Fill Area West of Building 135 (SEAD-59) and the Alleged	Parsons	MAR-2007
	Draft Proposed Plan for Five Former SWMUs – SEAD 1, 2, 5, 24 & 48	Parsons	MAR-2007
	Draft Final Feasibility Study Report for the Radiological Waste Burial Sites (SEAD-12)	Parsons	MAR-2007
	Draft Construction Completion Report for the Old Construction Debris Landfill (SEAD-11)	Parsons	MAR-2007
	Final Record of Decision for Seventeen SWMUs Requiring Land Use Controls (SEADs 13, 39, 40, 41, 43/56/69, 44A, 44B, 52, 62, 64B, 64C, 64D, 67, 122B, and 122E)	Parsons	MAR-2007
	Draft Remedial Design Work Plan and Design Report, (SEADs 16 & 17)	Parsons	APR-2007
	Completion Report for Munitions Response SEAD 002-R-01 SEAD 57,	Parsons	APR-2007
	Draft Final Proposed Plan, Two Areas of Concern Requiring Land Use Controls SWMUs SEAD 121C, the Defense Reutilization and Marketing Office Yard and SEAD-121I, the Rumored Cosmoline Oil Disposal Area	Parsons	APR-2007
	Draft Completion Report, Munitions Response and CERCLA Closure SEAD 57, SEAD 002-R-01 and SEAD 07-R-01	Parsons	MAY-2007
	Draft Final Proposed Plan for the Fill Area West of Building 135 (SEAD-59) and the Alleged Paint Disposal Area (SEAD-71)	Parsons	JUN-2007
	Draft Final Remedial Design Work Plan and Design Report SEAD 16 and SEAD 17	Parsons	JUN-2007
Draft Final Proposed Plan for SEAD 4 and SEAD 38	Parsons	JUN-2007	
Draft Final Proposed Plan for 5 former SWMUs –SEAD-1,2,5,24 &48	Parsons	JUN-2007	
Final SIGNED ROD for 17 Sites	Parsons	JUL-2007	
Final Remedial Design Work Plan and Design Report SEAD 16 and SEAD 17	Parsons	JUL-2007	

## Previous Studies

2007

Title	Author	Date
Draft ROD for (SEAD 121C) and SEAD 121I	Parsons	AUG-2007
Draft ROD for SEAD 4 and Bldg 2079	Parsons	AUG-2007
Draft ROD SEAD 121c and 121I and Appendices Vols I & II	Parsons	SEP-2007
Revised Draft Final Proposed Plan for Five Former SWMUs- SEAD 1,2,5,24&48	Parsons	NOV-2007
Revised Draft Final Proposed Plan SEAD-2 121C and 121I	Parsons	NOV-2007
Draft Work Plan, Sampling & Analysis for Evidence of Biogeochemical Reduction of	Parsons	NOV-2007
Draft Construction Completion Report for the Defense Reutilization and Marketing Office Yard (SEAD-121c)	Parsons	DEC-2007
Draft Construction Completion Report for the Abandoned Deactivation Furnace (SEAD 16) and the Active Deactivation Furnace (SEAD 17)	Parsons	DEC-2007

# Cleanup Program Summary

## ***Installation Historic Activity***

Since its inception in 1941, SEDA's primary mission was the receipt, storage, maintenance, and supply of military items. In July 1989 SEDA was proposed for the National Priorities List (NPL). In August 1990, SEDA was finalized and listed under Group 14 on the Federal Section of the NPL. To facilitate resolution of contamination issues at SEDA, the USEPA, the NYSDEC, and the Army entered into a Federal Facilities Agreement (FFA), also known as the Interagency Agreement (IAG). This agreement stated that future investigations would be based on Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) guidelines, and that the Resource Conservation and Recovery Act (RCRA) was considered an Applicable or Relevant and Appropriate Requirement (ARAR) pursuant to Section 121 of CERCLA. In October 1995, SEDA was designated as a facility to be closed under the provisions of the BRAC process.

## ***Installation Program Cleanup Progress***

### ***BRAC-IRP***

**Prior Year Progress:** RA(O) was in progress at the Ash Landfill (LF) and fire training area (FTA) sites. A Record of Decision (ROD) was started for the following sites: Sludge Piles, Construction Debris LF, Radiation Burial, Paint Disposal Areas, Metals Sites, Ore Igloos and Defense Reutilization and Marketing Office (DRMO). Interim remedial measures were completed at the Debris LF and DRMO site.

**Future Plan of Action:** An RD/RA will be completed at Munitions Washout, followed by LTM. Sites that receive NFA approval will be closed out. RA(O) will continue at the Ash LF and FTA sites.

### ***BRAC-MMRP***

**Prior Year Progress:** IRAs are in progress at two sites. LTM is in progress at one site. Two sites are at the end of the RI/FS phase, with RODs being drafted.

**Future Plan of Action:** LTM will continue at SEAD-001-R-01. RODs will be submitted for SEAD-002-R-01, -003-R-01, and -007-R-01. RI/FS will continue at SEAD-006-R-01.

# Transfer Summary

## BRAC IV

**Installation Size (Acreage):** 10,687.00

**BRAC Acreage:** 10,687.00

## Land Use Control (LUC) Summary

**LUC title:** Ash IC

**Site(s):** SEAD-006

**ROD/DD title:** Ash Landfill ROD

**Location of LUC**

West central portion of conservation area

**Land Use Restriction:** Media specific restriction - prohibit use of groundwater for consumption or domestic purposes

**Types of Engineering Controls:** None

**Types of Institutional Controls:** Deed Restrictions

**Date in Place:** 200501

**Modification Date:** N/A

**Date Terminated:** N/A

**Inspecting Organization:** Installation

**Record of LUC:** FOST

**Documentation Date:** N/A

**LUC Enforcement:** Annual Inspections, 5 Year Reviews

**Contaminants:** VOC

**Additional Information**

N/A

**LUC title:** Deact IC

**Site(s):** SEAD-001-R-01

**ROD/DD title:** Deactivation Furnaces

**Location of LUC**

Groundwater restriction in the PID Area

**Land Use Restriction:** Media specific restriction - prohibit use of groundwater for consumption or domestic purposes, Restrict land use - No daycare/hospital/school use, Restrict land use - No residential use

**Types of Engineering Controls:** None

**Types of Institutional Controls:** Deed Restrictions

**Date in Place:** 200509

**Modification Date:** N/A

**Date Terminated:** N/A

**Inspecting Organization:** Installation

**Record of LUC:** FOST

**Documentation Date:** N/A

**LUC Enforcement:** Annual Inspections, 5 Year Reviews

**Contaminants:** METALS, Unexploded Ordnance(UXO)

**Additional Information**

N/A

## Land Use Control (LUC) Summary

**LUC title:** FTA IC

**Site(s):** SEAD-025

**ROD/DD title:** Fire Training Areas DD

**Location of LUC**

PID AREA

**Land Use Restriction:** Media specific restriction - prohibit use of groundwater for consumption or domestic purposes

**Types of Engineering Controls:** None

**Types of Institutional Controls:** Deed Restrictions

**Date in Place:** 200609

**Modification Date:** N/A

**Date Terminated:** N/A

**Inspecting Organization:** Local Redevelopment Authority

**Record of LUC:** FOST

**Documentation Date:** N/A

**LUC Enforcement:** Annual Inspections, 5 Year Reviews

**Contaminants:** PETROLEUM HYDROCARBON, VOC

**Additional Information**

N/A

**LUC title:** LUC for SEAD 121

**Site(s):** SEAD-121

**ROD/DD title:** EBS Industrial Area

**Location of LUC**

PID Area

**Land Use Restriction:** Media specific restriction - prohibit use of groundwater for consumption or domestic purposes, Media specific restriction - restrict drinking water well installation, Media specific restriction - restrict withdrawal or use of groundwater for agricultural/irigation purposes, Media specific restriction - restrict withdrawal or use of groundwater w/out treatment, Restrict land use - No daycare/hospital/school use, Restrict land use - No residential use

**Types of Engineering Controls:** None

**Types of Institutional Controls:** Affirmative easements appurtenant, Deed Notices, Restrictions on Groundwater Withdrawal, Restrictions on land use, Zoning

**Date in Place:** 200809

**Modification Date:** N/A

**Date Terminated:** N/A

**Inspecting Organization:** Local Redevelopment Authority

**Record of LUC:** FOST

**Documentation Date:** 200806

**LUC Enforcement:** Annual Inspections, 5 Year Reviews, Transferee Reporting

**Contaminants:** METALS, PAH

**Additional Information**

N/A

## Land Use Control (LUC) Summary

**LUC title:** PID LUC

**Site(s):** SEAD-009, SEAD-027, SEAD-043, SEAD-044, SEAD-052, SEAD-056, SEAD-062, SEAD-066, SEAD-067, SEAD-069, SEAD-64A

**ROD/DD title:** Multiple Sites Rod With Risk Assessment

**Location of LUC**

LUC for PID and Prison parcels

**Land Use Restriction:** Media specific restriction - prohibit use of groundwater for consumption or domestic purposes, Media specific restriction - restrict drinking water well installation, Media specific restriction - restrict withdrawal or use of groundwater for agricultural/irrigation purposes, Media specific restriction - restrict withdrawal or use of groundwater w/out treatment, Restrict land use - No daycare/hospital/school use, Restrict land use - No residential use

**Types of Engineering Controls:** None

**Types of Institutional Controls:** Deed Restrictions, Local Use ordinances, Restrictions on Groundwater Withdrawal, Restrictions on land use, Zoning

**Date in Place:** 200802

**Modification Date:** N/A

**Date Terminated:** N/A

**Inspecting Organization:** Installation

**Record of LUC:** FOST

**Documentation Date:** 200609

**LUC Enforcement:** Annual Inspections, 5 Year Reviews, Other

## BRAC-IRP Summary

### **Total BRAC-IRP Funding**

Prior Funding (Includes ER,A funding from FY04 and prior years.):	\$89,315.8 K
Current Requirements:	\$559.0 K
Future Requirements:	\$10,363.0 K

### **Duration of BRAC-IRP**

Date of BRAC-IRP Inception:	197901
Estimated Date for Remedy-In-Place (RIP)/Response Complete (RC):	201006/202709
Date of BRAC-IRP completion including Long Term Management (LTM):	205201

**\*Note: This does not include sites closed prior to installation being identified as BRAC.**

# BRAC-IRP Contamination Assessment

## **Contamination Assessment Overview**

Seneca Army Depot Activity was added to the NPL in 1989. The FFA between the USEPA, the State of New York and the Army was signed in 1993. Seneca's mission before BRAC included the responsibility to receive, store, distribute, maintain, and demilitarize conventional ammunition, explosives, and special weapons; store, maintain, and issue general supplies, including hazardous materials. The major contaminants found on the installation include chlorinated solvents, radioactive isotopes, heavy metals, and petroleum hydrocarbons. The media affected by those contaminants includes groundwater, surface water, sediment, and soil.

Previous investigations completed in 1993 identified 72 solid waste management units (SWMU). The Environmental Baseline Study completed in 1996 added two additional sites that were identified as AOCs. Twenty-two operable units (OU) address the 74 AOCs. These sites are generally categorized as landfills, munitions open burning and open detonation (OB/OD) grounds, refuse burning sites, dump sites, burial pits, spills, and fire training areas. The final remedy is expected to be in place September 2013, subject to funding availability. Long-term management (LTM) is expected to last for 30 years. Institutional controls (IC) restricting certain types of development will last indefinitely.

## **Cleanup Exit Strategy**

Seneca is a BRAC Closure site with the mission to clean up and dispose of the property to the local reuse authority for industrial/commercial development, green energy, conservation and recreational activities, and housing. Specific details can be found in cleanup strategies of the individual sites. The last parcel is scheduled to be transferred in 2012.

## SITE DESCRIPTION

SEAD-4 is the Munitions Washout Facility located in the southwestern portion of SEAD and was part of the Ammunition Workshop Facility covering roughly 30 acres of developed and undeveloped areas. Eleven buildings existed at the Ammunition Workshop Facility during the years that the Munitions Washout Building was operating. Four buildings were demolished.

A man-made lagoon approximately 150 feet in diameter was created for the purpose of containing wastewater. Within the past eight years, the pond was widened and deepened with a bulldozer. Pond sediment was pushed southwest of the pond to a 400 foot by 150 foot area adjacent to the pond. There are no known records of its full excavation beyond this dredging and it is assumed not to have a liner.

The expanded site investigation (ESI) conducted at SEAD-4 in 2005 consisted of geophysics, soil sampling, test pitting, monitoring well installation, groundwater sampling, surface water and sediment sampling.

The ESI indicated that the surface and subsurface soils have been impacted by antimony, copper, chromium and zinc at concentrations significantly above their respective screening values. A baseline ecological risk assessment showed unacceptable risk to mourning dove.

Work conducted at SEAD 4 also includes SEAD-038 Boiler Plant Blowdown Pit at Building 2079.

## CLEANUP/EXIT STRATEGY

The Feasibility Study (FS), completed in 2005, recommended soil excavation and disposal. A Performance-Based Contract (PBC) was procured to take this site through response complete (RC). The RA(C) phase included remedial design (RD) as part of the PBC.

LTM includes annual groundwater monitoring for five years, a five-year review to evaluate and eliminate monitoring requirements, and preparation of site closeout documentation.

**SITE DESCRIPTION**

This site is a result of the storage of domestic sewage sludge from the drying beds at Sewage Treatment Plants (STP) No. 4 and No. 715. The storage area typically covered an area roughly 220 feet by 110 feet and was in use beginning in the 1980s.

Investigation results have revealed that the sludge material contains elevated levels of heavy metals. An Interim Removal Action (IRA) is complete. A Proposed Remedial Action Plan (PRAP) and ROD with land use controls (LUC) are being prepared. A no digging restriction will be placed on this site as a result of the excavated soils placed there from SEAD 59.

**CLEANUP/EXIT STRATEGY**

An NFA Proposed Remedial Action Plan (PRAP) and Record of Decision (ROD) will be prepared. LTM includes site closeout documentation and maintaining land use controls (LUC).

**RC Date:** 202201

**SITE DESCRIPTION**

The Ash Landfill Operable Unit (Ash Landfill) occupies approximately 130 acres along the western boundary of SEDA. The Ash Landfill is composed of five Solid Waste Management Units (SWMU) including: Incinerator Cooling Water Pond (SEAD-3), the Ash Landfill (SEAD-6), the Non-Combustible Fill Landfill (NCFL) (SEAD-8), the Refuse Burning Pits (SEAD-14), and the Abandoned Solid Waste Incinerator Building (SEAD-15). Primary contaminants are VOCs, SVOCs (mainly PAHs) and metals. The source of the VOCs was most likely the three alleged solvent dump areas located northwest of the Ash Landfill site.

Two removal actions have been performed at the Ash Landfill. The first action removed a former 1000-gallon heating oil underground storage tank (UST) and the second, a non-time critical removal action conducted between August 1994 and June 1995, consisted of excavation and thermal treatment of VOC-impacted soils using the Low Temperature Thermal Desorption process.

A ROD was signed in 2004 that included the remedial actions of excavation and off-site disposal of Debris Piles, establishment and maintenance of a vegetative soil cover for the Ash Landfill and the NCFL, and installation of three in-situ permeable reactive barrier walls.

This site includes SEAD-003, SEAD-008, SEAD-014, and SEAD-015 for tracking purposes.

The Army Management Structure (AMS) code is 61366R33.

**CLEANUP/EXIT STRATEGY**

The RA(O) includes monitoring and five-year reviews until groundwater cleanup standards have been met, followed by site closeout documentation. LTM includes maintaining LUCs.

The rampdown strategy is detailed in the LTM plan. This plan contains provisions to reduce monitoring requirements as cleanup goals are met.

**RIP Date:** N/A

**RC Date:** 200709

**SITE DESCRIPTION**

The Old Scrap Wood Site (SEAD-09) is located in the eastern-central portion of the Depot. This SWMU is located in a portion of the Depot where the future land use has been designated as industrial development. All sites associated with SEAD 9 have been consolidated for LUC implementation.

The Army proposed SEAD 9 as a Moderately Low Priority AOC, and this recommendation was documented in the final SWMU Classification Report.

A No Action ROD signed September 2003 includes SEAD-07, SEAD-09, SEAD-10, SEAD-18, SEAD-19, SEAD-20, SEAD-21, SEAD-22, SEAD-33, SEAD-35, SEAD-36, SEAD-37, SEAD-42, SEAD-49, SEAD-51, SEAD-53, SEAD-55, SEAD-65, and SEAD-68.

A No Action ROD which includes SEAD-58 was signed in September 2006.

The ROD for Sites Requiring Institutional Controls in the Planned Industrial/Office Development or Warehousing Areas was signed September 28, 2004 and includes SEAD-27, SEAD-66 and SEAD-64A.

The ROD for Seventeen SWMUs Requiring Land Use Controls (SEAD-13, SEAD-39, SEAD-40, SEAD-41, SEAD-43/56/69, SEAD-44A, SEAD-44B, SEAD-52, SEAD-62, SEAD-64B, SEAD-64C, SEAD-64D, SEAD-67, SEAD-122B, and SEAD-122E) was signed on July 3, 2007.

**CLEANUP/EXIT STRATEGY**

LTM includes maintaining LUCs and preparing site closeout documentation.

**Site ID: SEAD-011**

LTM.....	200909.....	201210

**RIP Date:** N/A

**RC Date:** 200909

**SITE DESCRIPTION**

SEAD-11 is an abandoned landfill located in the southwestern portion of SEDA covering approximately four acres (590 feet by 300 feet). Soil analytical results showed that acetone, trichloroethene (TCE), and SVOCs were found at concentrations above the screening criteria. The results of the groundwater sampling program at SEAD-11 indicate that aluminum, antimony, iron, manganese, sodium, and thallium were present in individual wells at concentrations above screening criteria.

An Action Memorandum was prepared recommending a non-time critical removal action to address contaminants that have been identified in the soil that represent a potential threat to the environment and neighboring populations. The removal action was originally planned as a time critical removal action; however, since potential reuse of neighboring areas has been slower than originally anticipated, a non-time critical removal action is more appropriate. The presence of drums and other containers and the uncertainty of their contents is justification for a removal action at the site. Field work has been completed. An NFA PRAP and ROD will be processed in FY08.

**CLEANUP/EXIT STRATEGY**

The Interim Removal Action (IRA) field work has been completed and an NFA Determination is planned for submittal.

LTM includes site closeout documentation.

A PBC has been procured to take this site through RC.

<b>RIP Date:</b>	N/A	
<b>RC Date:</b>	201006	

**SITE DESCRIPTION**

This site consists of the former special weapons storage area at the north end of the installation. Three areas within the special weapons area were used to bury classified components.

Buildings 813 and 814 were constructed in the 1950s and primarily used for painting operations. A Supplemental Remedial Investigation (SRI) was conducted based on the recommendations from the RI/FS conducted from 1995 through 1999 due to elevated TCE in groundwater adjacent to the building, and further investigation of EM-5, miscellaneous material burial pit, was recommended to further evaluate elevated levels of Pb-210 detected in soil samples.

A soil removal action was conducted in FY 05 at the northeast corner of Building 813 with confirmatory samples indicating no VOC concentrations above soil screening criteria. Additional soil samples collected at EM-5 showed Pb-210 to be within screening criteria. Results of the remedial investigation indicate no unacceptable risk to human health and the environment.

The third area, SEAD-072 Mixed Waste Storage Building, regulated under the Interim Status Hazardous Waste Permit will be closed out and incorporated into the ROD for SEAD-012.

This site is combined with SEAD-63 for funding; the AMS code is 61366R32.

**CLEANUP/EXIT STRATEGY**

The remedial investigation/feasibility study (RI/FS) will be completed. The RA most likely will consist of the removal and disposal of classified components followed by LTM. LTM will include site closeout documentation.

<b>RIP Date:</b>	200809	
<b>RC Date:</b>	202709	

**SITE DESCRIPTION**

The inhibited red fuming nitric acid (IRFNA) disposal site is located in the northeastern portion of SEDA and includes two IRFNA disposal areas, SEAD-13-East and SEAD-13-West, located on the eastern and western sides of the south end of the Duck Pond, respectively. SEAD-13-East consists of six elongated disposal pits generally 20 to 30 feet long, oriented east to west, and marked by sparse vegetation, crushed shale and one inch limestone pieces at the surface. Vertical water and shower pipes are located west of the pits. This site was used by the Army to neutralize IRFNA, a liquid propellant constituent. The acid was poured into a trench filled with limestone and water and was neutralized. The process resulted in nitrogen compounds being introduced into the groundwater.

An ESI was conducted from 1993 to 1994 followed by supplemental sampling from 2000 to 2002. Results of field investigations identified four wells at SEAD-13-East with nitrate/nitrite-nitrogen concentrations above the New York State (NYS) Ambient Water Quality Standard (AWQS) for groundwater classified as GA. A 2004 Decision Document recommended that remedial action for soil, sediment, and surface water was not required and instituting groundwater use restriction to prevent the ingestion of groundwater is required until contaminant concentrations meet the New York State Department of Environmental Conservation (NYSDEC) Class GA groundwater standards and the USEPA maximum contaminant levels (MCLs). Additional recommendations included annual groundwater monitoring and five-year reviews.

**CLEANUP/EXIT STRATEGY**

The RI/FS will be followed by submission of an IC PRAP/ROD. RA(O) will be required for natural attenuation until groundwater cleanup goals are met. Five-year reviews will evaluate the need for continued groundwater monitoring. Once cleanup goals are met, site closeout documentation will be prepared.

LTM.....	200608.....	203805

**RIP Date:** N/A

**RC Date:** 200607

**SITE DESCRIPTION**

The Fire Training and Demonstration Pad (SEAD 25) is located in the east-central portion of SEDA covering roughly 7.6 acres and was in use from the late 1960s to the late 1980s. During the 1980s, the pad was used twice for fire fighting demonstrations, once in 1982 or 1983 and again in 1987. Results of the 1998 RI indicated the site soil had been impacted by VOCs and SVOCs due to past fire training activities. The presence of VOCs in the soil is considered to be the source of groundwater impacts that will be mitigated through the removal of the soil.

The 2003 ROD proposed to remove impacted soil and institute land use controls. This action was conducted in 2005.

For tracking purposes, SEAD-25 is combined with SEAD-26.

The Fire Training Pit and Area (SEAD-26) is located in the southeastern portion of SEDA and covers approximately 8.2 acres. SEAD-26 was in use from 1977 to 1994 and was used one to four times a year for fire fighting training during which time various flammable materials were floated on water, ignited, and extinguished. Prior to 1977, the fire training area may have also been used for fire demonstrations. On site soils have been impacted by elevated levels of polycyclic aromatic hydrocarbons (PAHs) and groundwater has been impacted by VOCs. As with SEAD-25, the 2003 ROD proposed to excavate impacted soil and treat groundwater entering the excavation. The remedy was designed to restore the site to unrestricted use. The remedial action which consisted of a soil removal was completed in FY 06 and groundwater monitoring started.

The AMS Code is 61366R29.

**CLEANUP/EXIT STRATEGY**

LTM will consist of groundwater monitoring, five-year reviews, and LUCs.

The rampdown strategy is detailed in the LTM plan. This plan contains provisions to reduce monitoring requirements as cleanup conditions are met.

**Site ID: SEAD-048**  
**Site Name: PITCHBLEND STORAGE AREAS**

LTM.....	200000.....	200010

**RIP Date:** N/A

**RC Date:** 200909

**SITE DESCRIPTION**

E0800 Row Pitchblende Ore Storage Igloos (SEAD-48) are located in the southern area of SEDA and consist of 11 ammunition storage bunkers (igloos), Igloos E0801 through E0811. A Multi-Agency Radiation Survey and Site Investigation Manual based radiological survey was performed to investigate and evaluate this site with the goal of final site closure and unrestricted release.

During the 1940s pitchblende ore was stored in the igloos for roughly three months. Following this six of the igloos became a storage site for non-radioactive Army munitions until the late 1970s. Two of the igloos were used to store licensed radioactive commodities. Expanded site investigations at SEAD-48 in 1976, 1980, and 1985 indicated that levels of Ra-226, U-234, U-235, and U-238 in the soil potentially presented risks to human health and to the environment.

The USEPA and the NYSDEC approved the Army's plan to further investigate the areas identified in 1993 by the New York State Department of Health (NYSDOH).

Unrestricted access approval is on file from the Nuclear Regulatory Commission (NRC), NYS and the USEPA. An extensive removal occurred during the decommissioning process; however, there is a concern for residuals under current standards.

A Final Status Survey (FSS) has determined that no additional work is required.

**CLEANUP/EXIT STRATEGY**

The RI/FS process will be followed by an NFA PRAP/ROD expected in FY09. LTM includes site closeout after the ROD is signed.

## SITE DESCRIPTION

SEAD 59 is a former fill area of about six acres located west of Building 135 that was used for the disposal of concrete, asphalt, metal, wood, chain link fence, paint cans and 55 gallon drums.

A 2002 Action Memorandum outlined the objectives of the time critical removal action (TCRA) which included the removal of metal debris, paint cans and drums. The TCRA was conducted between September and November 2002.

An RI has been prepared which demonstrates that there is no unacceptable risk from this site for an industrial setting. A no digging restriction will be required for the excavated soil remaining on site and deposited on SEAD 5.

This site allegedly was a paint disposal area located near Buildings 114 and 127 and is roughly two acres in size.

For tracking purposes, SEAD-071 is combined with this site. The AMS Code is 61366R41. Land use controls will become part of SEAD-27 Institutional Controls (IC).

## CLEANUP/EXIT STRATEGY

The FS will be followed by an IC PRAP and ROD in FY09. LTM includes site closeout documentation and maintenance of LUCs.

LTM.....	200909.....	203909

**RIP Date:** N/A

**RC Date:** 200909

**SITE DESCRIPTION**

This site includes 8 sites located in the proposed industrial area. SEAD-121C consists of a triangularly shaped, fenced in, gravel lot located in the east-central portion of the Depot. Building 360 is outside the site fence whereas Building T-355 is located in the central part of the Yard and used for storage. Interviews with Depot personnel indicate a history of rapid turnaround of material and vehicles stored in this area. A 70 foot by 20 foot concrete barrier containment area is located at the southwest corner of the site and is occasionally filled with debris (e.g., scrap metal, wood debris, ordnance components, batteries, tiles, oil filters, auto parts, paint cans, tires, etc.). Concrete block and concrete barrier storage cells were also located in the northeastern portion of the site.

SEAD-121I consists of four rectangular grassy areas. To the east and west of the four rectangular plots are two rows of buildings that are actively used for warehousing. Buildings 331 and 329 are located to the west and receive frequent truck deliveries. A railroad spur line enters SEAD-121I from the south and extends to the northern end of the SEAD where it terminates. Two sidings branch off the main spur line. Information provided by the Army indicates that the rail spur and sidings were used for delivery of equipment and machinery that was frequently packed in Cosmoline (oil). During delivery and unpacking of the equipment and machinery, oil from the packing may have been released to the ground.

The Draft Final RI was submitted for regulatory review in 2005. The analytical results at SEAD 121C suggest that there are two discrete areas with the presence of heavy metals in the soil. There is no indication of any releases of organics across the site. There is no evidence of a systemic release at SEAD-121 I. The PAH concentrations detected in the soil at SEAD 121 I are believed to be anthropogenic since the site is located along a roadway within the industrial area of SEDA.

**CLEANUP/EXIT STRATEGY**

The ROD will be completed for LUCs.

LTM will include site closeout documentation and maintaining LUCs.

## Response Complete (No Further Action) Summary

# BRAC-MMRP Summary

## Installation Total Army Environmental Database-Restoration (AEDB-R) BRAC Sites/Response Complete (RC)

BRAC Sites\*: 13/8

### Installation Site Types with Future and/or Underway Phases\*

- 1 Explosive Ordnance Disposal Area  
(SEAD-002-R-01)
- 2 Firing Range  
(SEAD-003-R-01, SEAD-007-R-01)
- 1 Incinerator  
(SEAD-001-R-01)
- 1 Open Burn  
(SEAD-006-R-01)

### Most Widespread Contaminants of Concern\*

Metals, Munitions and explosives of concern, Munitions constituents, Semi-volatiles

### Media of Concern\*

Groundwater, Soil

### Completed Remedial Actions (Interim Remedial Actions / Final Remedial Actions (IRA/FRA))\*

Site ID	Site Name	Action	Remedy	FY	Cost
SEAD-001-R-01	DEACTIVATION FURNACES	FRA	INSTITUTIONAL CONTROLS	2008	TBD
SEAD-001-R-01	DEACTIVATION FURNACES	FRA	WASTE REMOVAL - SOILS	2008	TBD
SEAD-007-R-01	RIFLE GRENADE RANGE	IRA	REMOVAL	2008	TBD

### Total BRAC-MMRP Funding

Prior Funding (Includes ER,A funding from FY04 and prior years.): \$11,179.4 K  
 Current Requirements: \$4.0 K  
 Future Requirements: \$22,800.0 K

### Duration of BRAC-MMRP

Date of BRAC-MMRP Inception: 197905  
 Estimated Date for Remedy-In-Place (RIP)/Response Complete (RC): 201709/201709  
 Date of BRAC-MMRP completion including Long Term Management (LTM): 204709

\*Note: This does not include sites closed prior to installation being identified as BRAC.

# BRAC-MMRP Contamination Assessment

## **Contamination Assessment Overview**

Seneca Army Depot was added to the NPL in 1989. The FFA between the USEPA, the State of New York and the Army was signed in 1993. Seneca's mission before BRAC included the responsibility to receive, store, distribute, maintain, and demilitarize conventional ammunition, explosives, and special weapons; store, maintain, and issue general supplies, including hazardous materials. The major contaminants found on the installation include chlorinated solvents, radioactive isotopes, heavy metals, and petroleum hydrocarbons. The media affected by those contaminants include groundwater, surface water, sediment, and soil.

Previous investigations completed in 1993 identified 72 SWMUs. The Environmental Baseline Study completed in 1996 added two additional sites that were identified as AOCs. 22 operable units address the 74 AOCs. These sites are generally categorized as landfills, munitions open burning and open detonation grounds, refuge burning sites, dump sites, burial pits, spills, and fire training areas. The final remedy is expected to be in place September 2013, subject to the availability of funding. LTM is expected to last for 30 years. Institutional controls restricting certain types of development will last indefinitely.

## **Cleanup Exit Strategy**

Seneca is a BRAC Closure site with the mission to clean up and dispose of the property to the local reuse authority for industrial/commercial development, green energy, conservation and recreational activities, and housing. Specific details can be found in cleanup strategies of individual sites. The last parcel is scheduled to be transferred in 2012.

<b>RC Date:</b>	200808	

**SITE DESCRIPTION**

Formerly SEAD-16/17, this site includes former and existing popping plants. The Abandoned Deactivation Furnace (SEAD-16) is located in the east-central portion of SEDA consisting of 2.6 acres of fenced land with grasslands, a storage area and the building housing the deactivation furnace. The Active Deactivation Furnace (SEAD-17) is located adjacent to and southwest of SEAD 16 and consists of a deactivation furnace building surrounded by a crushed shale road.

Based on the ESI, an RI field program identified lead in building materials and soil and PAHs in the soil at SEAD 16. Lead concentrations in soil at SEAD 16 were of concern. A Final ROD was signed by the regulators on September 29, 2006.

**CLEANUP/EXIT STRATEGY**

A PBC has been procured to take this site through to RC.  
 LTM includes LUCs, five-year review, and site closeout documentation.

**Site ID: SEAD-002-R-01**  
**Site Name: EAST EOD RANGES**

**RIP Date:** N/A

**RC Date:** 200909

**SITE DESCRIPTION**

The East EOD Ranges include EOD Range 2 and EOD Range 3. EOD Range 2 covers five acres and is located along the northeastern portion of SEDA within Local Training Area (LTA) 2.

Munitions and explosives of concern (MEC) have been found at both sites as a result of record search and site investigations. The RI recommended performing removal actions at the two locations and restricting the land use to surface activity.

**CLEANUP/EXIT STRATEGY**

A contract has been procured to take this site through RC.

LTM includes munitions and explosives of concern (MEC) monitoring.

**Site ID: SEAD-003-R-01**  
**Site Name: EOD RANGE 1**

RA(C).....	201009.....	201112
LTM.....	201201.....	204208

**RIP Date:** N/A

**RC Date:** 201112

**SITE DESCRIPTION**

This range consists of three separate areas: EOD Area 1 (SEAD-057), Demolition Range, and the Function Test Range. EOD Area 1 occupies 194 acres at the northwest corner of SEDA and was used from 1941 until 1995. The Demolition Range is also located in the northwest portion of SEDA and covers 40 acres. A 2001 Engineering Evaluation/Cost Analysis (EE/CA) revealed scrap but no unexploded ordnance (UXO). The Bazooka Range is located within the Local Training Area 2 (LTA-2) on the eastern side of SEDA and was used as a small arms range from 1941 until 1963.

**CLEANUP/EXIT STRATEGY**

A field investigation has been completed and a completion report is being prepared, followed by a ROD with LUCs for MEC. A contract has been procured to take the site through RC.

A soil excavation followed by off-site disposal may be required. LTM includes MEC ICs.

Site ID: SEAD-006-R-01

Site Name: OPEN BURN/OPEN DETONATION GROUNDS

Alias: SEAD-115

### STATUS

**Parcel:** LRA 4A (364 acres)

**Regulatory Driver:** CERCLA

**Program:** BRAC-MMRP

**MRSPP Score:** Evaluation pending

**Contaminants of Concern:** Metals, Munitions and explosives of concern

**Media of Concern:** Groundwater, Soil

**BRAC Round:** BRAC IV

Phases	Start	End
PA.....	200111.....	200206
RI/FS.....	200208.....	201709
IRA.....	201404.....	201709
LTM.....	201710.....	204709

**RIP Date:** N/A

**RC Date:** 201709

### SITE DESCRIPTION

The Army destroyed ammunition by detonation and open burning at this site, which covers 364 acres and was in operation from 1948 through 1998. The Open Burn (OB) ground consists of eight U-shaped earthen berms. The Open Detonation (OD) grounds are to the north of the OB grounds.

The investigation of this site revealed contamination consisting of OE and heavy metals. This is a RCRA interim permitted site.

This site also encompasses SEAD-023, Open Burning Grounds, where a CERCLA remediation was completed in 2003.

### CLEANUP/EXIT STRATEGY

Interim MEC removal will be performed and any residual soil contamination will be addressed. The removal action will be followed by an IC PRAP/ROD. LTM includes groundwater monitoring (RCRA required), LUCs, five-year reviews, and site closeout documentation.

**Site ID: SEAD-007-R-01**  
**Site Name: RIFLE GRENADE RANGE**  
**Alias: SEAD-118**

**STATUS**

**Parcel:** LRA 5 (88 acres)

**Regulatory Driver:** CERCLA

**Program:** BRAC-MMRP

**MRSPP Score:** Evaluation pending

**Contaminants of Concern:** Metals, Munitions and explosives of concern

IRA.....	200602.....	200809
LTM.....	200910.....	203809

**RIP Date:** N/A

**RC Date:** 200909

**SITE DESCRIPTION**

The site was a 49 acre training range where 40mm training grenades and 37mm LAW sub-caliber training rounds were fired. This site represents an area where MEC was found as a result of records search and site investigations. It was formerly referred to as SEAD-118.

**CLEANUP/EXIT STRATEGY**

A removal contract has been procured to take the site through RC. Field work has been completed and a completion report is being prepared. A LUC ROD is anticipated. LTM includes MEC monitoring and LUCs.
