Subject: [Non-DoD Source] Re: Seneca Army Depot SEDA 25 LTM Recommendations

Jim,
The NYSDEC has reviewed the Technical Memo regarding optimization of groundwater monitoring for VOCs at SEAD 25 at Seneca Army Depot. The NYSDEC has no comments on the technical memo and accepts it.

Please contact me should you have any questions.

Thank You,
Melissa

Subject: FW: Seneca Army Depot SEDA 25 LTM Recommendations

All

Please see the attached Technical Memorandum recommending an optimized long-term monitoring program for benzene, toluene, ethylbenzene, and xylene (BTEX) at the Fire Training and Demonstration Pad (SEAD-25) at Seneca Army Depot Activity in Romulus, New York.

This memo recommends a ramp down/close out strategy for monitoring wells for BTEX at SEAD-25.

The recommendations do not impact the ongoing PFAS investigation at this site. If you have any questions please let us know.

I hope that you all are safe and healthy.

Respectfully

Jim
