Dear Jim,

The NYSDEC has reviewed the Draft Annual Report and Year 12 Review of the Ash Landfill at Seneca Army Depot, dated October 2019. The following item should be rectified in further revisions of the report:

1. The Data Validation Report for 1,4-dioxane in the landfill groundwater samples was included with this report. However, no 1,4-dioxane data was reported in this round of sampling. Please remove the 1,4-dioxane validation report from this report.

The NYSDEC has reviewed the Draft Letter Report for the 27th Round of Long-Term Monitoring at the Ash Landfill at Seneca Army Depot, dated October 31, 2019 and has no comments at this time.

Please contact me should you have any questions on these matters.

Thank You,

Melissa Sweet
